

Dry-Lining

Swiftwall™ delivers the most innovative dry-lining solutions in the market. Our approach has been proven to reduce risk and increase quality on some of the UK's most demanding projects.

- A complete dry-lining, partitioning and suspended ceiling service
- Teams of highly skilled and dedicated tradesmen ensuring exceptional workmanship and service throughout a project
- Unique prefabricated wall panel and ceiling solutions to reduce waste and improve quality on site
- Our solutions offer flexibility and adaptability to respond to changing future needs
- Incorporation of M&E services within prefabricated systems to reduce first and second fix requirements
- A comprehensive specification and design capability to meet client requirements
- An integrated delivery solution with other Swift Horsman products to reduce work package interface risks
